

Jenil Patel

Regina, SK | (639)-571-8105 | [Portfolio](#) | pjenil60@gmail.com

Summary

I am a motivated and adaptable Computer Science student with strong analytical, communication and teamwork skills. Proven ability to quickly learn new technologies and contribute to team success. Eager to develop professionally and committed to continuous learning and improvement. Collaborative team player with strong commitment to agile methodologies and process optimization and increasing team productivity.

Education

Bachelor of Science in Computer Science
University of Regina | SK, Regina

09/2024 - Present

- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Databases (SQL), Discrete Mathematics, Computer Organization, Introduction to Software Engineering
- Maintaining strong academic standing while balancing part-time work; coursework emphasizes problem decomposition, algorithmic efficiency, and clean code structure.

Projects

- [Personal Portfolio Website](#) | **React, Vite - Deployed on Vercel**
 - Designed and built a personal portfolio site with React and Vite to showcase projects, skills, and contact information.
 - Configured linting (Oxlint) and a component-based structure to keep the codebase maintainable as new projects are added.
 - Deployed and hosted the site on Vercel with continuous deployment from GitHub, live at portfolio-ggru.vercel.app.
- [Sudoku Game](#): **Practice recursion and backtracking.**
 - Implemented a backtracking algorithm to automatically solve any valid 9x9 Sudoku puzzle, testing candidate values and reverting on conflict.
 - Added input validation to detect and reject malformed or unsolvable starting boards before the solver runs.
 - Applied structured, modular design to keep the logic readable and easy to debug, strengthening skills in recursion and algorithmic problem-solving.
 - Documented the algorithm's approach and complexity trade-offs to make the solution easy for others to follow and extend.
- [Library Management System](#): **algorithms Track books, issue dates and student returns using Fine I/O.**
 - Built a system to track borrowed books, due dates, and late fines, persisting all records to file so data survives between sessions.
 - Designed core operations for checkout, return, and fine calculation, with logic to prevent duplicate or conflicting record updates.
 - Modeled real-world record-keeping with an emphasis on data integrity, laying groundwork for a future move to a relational database backend.
 - Wrote clear internal documentation of data structures and functions to support future maintenance and feature additions.

Experience

Loss Prevention

Blackbird Security Inc. | Regina, SK

04/2026 – Present

- Monitored premises through regular patrols to maintain a safe and secure environment.
- Controlled access to buildings by verifying identification and authorizing entry.
- Responded promptly to alarms, incidents, and emergencies following established procedures.
- Prepared accurate daily activity logs and detailed incident reports.

Food Services Assistant

Regina Public School | SK, Regina

03/2026 – Present

- Prepare and organize the kitchen for the following day which includes cleaning and sanitizing the kitchen area.
- Assist with equipment cleaning and maintenance.
- Working with the cash register and accounting of daily sales.
- Follow the safe food handling and operating equipment in a safe manner.

Customer fulfillment associate

Walmart East | SK, Regina

03/2025 – 03/2026

- Resolved 30+ customer inquiries daily, maintaining a 95% satisfaction rate.
- Streamlined checkout processes using POS systems, reducing average customer wait times.
- Collaborated with team members to manage and restock inventory efficiently.
- Trained new team members on POS operation and store procedures, supporting faster onboarding.
- Identified and flagged inventory discrepancies to supervisors, helping reduce stock errors.

Service Desk Associate

Cadila Pharma | Ankleshwar, India

02/2023 –02/2024

- Technical Support, efficiently diagnosing, troubleshooting and resolving hardware, software and application issues for end users.
- Maintained and organized client information was kept accurate, structured and up to date.
- Handled client inquiries and managed appointment scheduling, coordinating details smoothly between clients and management.
- Executed professional phone calls and drafted Emails as required by management to ensure seamless operational coordination, follow-ups, and client satisfaction.

Skills

- **Languages:** C++, C, Python, HTML, CSS, Javascript and SQL.
- **Tools:** Linux, Git Version Control, AI, Outlook, Teams, SharePoint, Microsoft Visio & Excel.
- **Competencies:** Technical documentation, Algorithmic complexity & Logic.
